

In the Night
(Tero Arteli)

Yesterday we woke up in the middle of the night
and we saw how the ghosts are dancing in streets.
We join in to the party of nightmare and dark,
we have good time, til' the golden sunrise dawned.

In the night we see this
In the night we party
In the night we have good time
In the night, In the night

If you do wake up in the middle of the night,
You might see how the ghosts are dancing in streets.
Just join in to the party of nightmare and dark,
and have good time til' the golden sunrise dawned.

In the night we see this
In the night we party
In the night we have good time
In the night, In the night

In the night we see this
In the night we party
In the night we have good time
In the night, In the night
